To All of Our Anlon Friends;

Our hearts go out to everyone affected by the coronavirus pandemic, and we're committed to doing everything we can to ensure the safety of our customers, partners, and the entire community.

Our priority is the health, safety and well being of all of you who are a part of our Anlon team and the community at large. As we continue to daily monitor what is happening with the global COVID-19 pandemic and the strain it is putting on all of us we want to let me you know what we are doing to try and reduce and manage risks to our team and the community.

Anlon is implementing the recommendations of the CDC as well as our state and local authorities to help protect the health of our team and all of the partners with whom we work with and work for. This includes using "social distancing" as a way to reduce the spreading of coronavirus. We have implemented policies that encourage our employees ability to work from home, making all meetings virtual where at all possible and continuing to adapt to the evolving challenge. This is an ever-changing situation and our conditions, policies and responses are subject to change at any time.

For the few face to face meetings that we are having we will be asking that these are "handshake free" meetings and that we all practice social distancing.

At Anlon, our mission is to build the highest quality homes while delivering an unmatched experience for our clients. That has not changed. For the meantime, how we do that has.

We truly appreciate all of you and your continued support in these challenging times,

Michael Harn,

Anlon Construction, LLC
